Octocotton

R25.00 **-58%** R60.00

Octocotton, the new kid on the block. Pure wicking pleasure for tanks and drippers Octocotton has the cleanest flavour you will ever taste. The Octopus is the genius of the ocean world and just like this cotton can use their brains to sort out any problem - the problem here being slow wicking and that awful cotton taste. Octocotton wicks fast and has no cotton taste right off the bat this means that just like a real octopus this cotton is flexible and works with any build and any flavour. All you get is tentacles of crisp, clean cotton to make your vaping experience pleasureable!

- Zero Cotton Taste
- Suitable for RBA/RTA/RDA/RDTA
- Pure Organic Cotton Fiber
- Large fibers designed for sub-ohm use
- Pharma Grade
- Zero Bleach
- No actual octopuses were harmed in the making of this cotton

Cotton Bacon Prime

R100.00

PRIME is our newest cotton wicking material and was developed specifically with RTAs, RDTAs, and squonking in mind. PRIME uses a different strain of cotton that has naturally thicker fibers. These thicker fibers allow the cotton to absorb liquid **at least 33% faster** (seriously, we measured)! PRIME is still everything you love about Cotton Bacon V2, but with even faster wicking! That means no dry hits and no break in time. It's tasteless, free of impurities, natural oils, and pesticides. Use it anywhere you'd use V2, and especially in a tank or squonk situation!

Each bag of PRIME includes 10 strips of cotton and includes our unique "Scratch and Reveal" product authentication sticker
