Airistech Herbva 5G Herb Vaporizer

R800.00

The Herbva 5G is one of Airistech's newly released portable dry herb vaporizer. This new vape pen is a great option for those looking for something portable, efficient and affordable. There are some pretty neat features on the new Airistech Herbva 5G. First off, it has a universal micro-usb charging port. This means that you can charge your vape with almost anything. Pretty much all vape charging cords will work. Even most Android cell phone chargers will be able to charge this vaporizer. Secondly, it is really portable. It's only 105MM long and just 21MM deep. It'll fit easily in your hand or pocket because it's so small. The third reason that's so great is the ceramic heating chamber. A ceramic heating chamber is great for low or high temp vaping. Another thing about a ceramic chamber is that it won't affect the flavor of your dry herb.

Features and Specs

- For Dry Herb
- Magnetic Mouthpiece
- 1000 mAh Li-Polymer Battery
- 3 Temp Settings: 390°F / 405°F / 420°F
- Deep Ceramic Chamber
- Fast Heat Up Times (15 Seconds)
- Cost Friendly

Package Contents

- **1x** Airistech Herbva 5G

Leafolo Herbal (Lions Tail) Blend - Large (20G)

R100.00

Our Lion's Tail blend is ideal for bringing one to a calm and relaxed state and for inducing a deep meditative sleep and enhancing dreaming. Traditionally the plant has had many medicinal uses, and the indigenous Khoikhoi people of South Africa would smoke it, claiming it is a good remedy for chest complaints, including coughs, colds and bronchitis. In addition, because of its mild euphoric effects, Lions Tail is a wonderful complimentary smoking additive to a blend and is often referred to as a Cannabis substitute or companion for a mix.

RAW Hemp Plastic Roller 1 1/4 (1PC)

R65.00

This hemp plastic is made by raw for regular, 79 mm rolling papers. Raw roller cigarette maker for 1 1/4 size rolling papers.

RAW Hemp Plastic Roller King Size (1PC)

R80.00

RAW is not just a brand, it's a lifestyle. The RAW brand has a cult-like following and a huge customer base. RAW Rolling Machines are a complementary item to RAW® rolling papers. Whereas RAW rolling papers are made with unrefined fibers, RAW® Rolling Machines are produced using a hemp-based eco-plastic.

Why Hemp for Eco-Plastic? RAW have been experimenting for years with ways to produce an 'earth friendly' plastic body for our rolling machines. The advent of Hybrid cars made the manufacturers realize that perhaps they should look at creating a hybrid plastic. Thus a new composite was created using Hemp and Recycled plastics. Hemp had to be used instead of other natural fibers due to the inherent strength of the Hemp fiber. Hemp fiber is one of the strongest natural fibers on the planet and its natural resilient qualities made it the only choice for the hybrid composite plastic body for the RAW plastic items. RAW's Hemp 'eco-plastic' is manufactured at a special facility in Germany.

RAW Classic Kingsize Cones

Tobacco Grinder - 4 Part Metal Coloured Drips

R300.00

Tobacco Grinder - 4 Part Super Hero - Metal Rainbow is such a trendy statement piece to have. It is both stylish and functional. This grinder is the next accessory to get. With its special filtering chambers, you are guaranteed a roughly fine grind. The 4 piece grinders starts with a tough top magnetic layer, followed by the grinding chamber. As you twist it, razor sharp teeth will grind the herb into fine little pieces that will fall through the 2nd layer onto the 3rd layer. Once they get there, they are fine and crisp enough to start your smoking session. Finer products keep falling until the base chamber, where the pollen screen allows only the smallest particles to pass through, catching that precious extra-potent fairy dust. This is perfect for those who prefer a finer grind.

Yocan Blade Dabbing Hot Knife

R627.00

The Yocan Blade is more than just a dab tool; it's a game-changer that elevates your dabbing experience while ensuring optimal extraction from your concentrates. This electric dab tool is designed with the user in mind, featuring a high-capacity battery that guarantees flawless sessions every time. What sets it apart are the dual ceramic blades, offering you the flexibility to choose the perfect blade for your specific concentrate type. With the Yocan Blade, precision, efficiency, and unmatched extraction are the keys to success.

Here are the benefits of using this battery-operated dabbing tool:

Reliable Battery Power: The Yocan Blade Dabbing Knife is equipped with a robust 400mAh rechargeable battery, ensuring sufficient power for all your dabbing needs. This capacity is well-suited for smaller, portable devices, allowing extended usage without the need for constant recharging. Unlike other hot knives, the ceramic tip is not power-hungry, which means the battery can last for days, making it an essential tool for precisely extracting your concentrates.

Charging is a breeze thanks to USB type-C technology, a feature shared across many of Yocan's vaporizers, adding to your convenience. With the Yocan Blade, you can count on long-lasting power and a hassle-free charging experience.

An Affordable Alternative to Yocan Black JAWS: Yocan has introduced its new sub-brand, Yocan Black, which includes products like the Yocan Black JAWS Hot Knife & Thermometer. While the Yocan Blade may not come with extravagant extras, it offers essential functionalities that cater to your daily dabbing needs at a more budget-friendly price.

The Yocan Blade is an excellent choice for those in search of an affordable hot knife to efficiently handle wax concentrates. Whether you need precise microdosing or regular use, the Blade has you covered. So, if you're looking for a cost-effective yet efficient solution for your dabbing adventures, the Yocan Blade is a wise decision.

This nifty little tool is perfect for extinguishing those smokes that you aren't able to enjoy in one sitting. Based on the design of a cigar cutter, RAW scaled it down and modified the sharp 80 degree blades so they are compatible with paper pre-rolls. All you have to do is cut off the burnt ash portion at the tip so that the next time you light up it is a fresh and flavorful experience! Included is an in-dwelling poker tool to compress the contents inside of your freshly cut cone. This RAWsome tool ensures that your last hit is just as enjoyable as the first!

Eurojet Single Jet Flame Lighter (Black)

R250.00

Many would ask, why not use a regular lighter? Regular lighters are actually for smaller cigarette-like products and therefore produce a smaller flame. Although one could make use off them for their cigars, it can result in an uneven burn and even waste of product. Cigar lighters [are designed specifically for cigar use](#). They often feature extra wide flames, wind-resistant flames, multiple flames, large-capacity fuel tanks, or even built-in cigar cutters.

Eurojet is a brand that redefines lighters by crafting lighters that range from traditional classics to innovative modern design. Always putting quality first, the materials make for a compact yet sturdy and comfortable product. The lower half of this lighter has a circular opening. That portion acts as a cigar rest, giving this lighter more versatility. This isn't your stock standard lighter. Crafted for the cigar aficionados, this beauty also features a cigar punch. The built-in punch, found at the base, removes just enough from the cigar cap to get your sessions going.

Glass Pipe - Super Heroes Spiral 14cm

R100.00

Glass Pipe - Super Heroes Spiral - 14cm - 340754 is part of our beautiful collection of glass pipes. Pipes are ideal for the purists in the group.

The benefits of having glass over wood is that glass pipes do not alter the taste of your tobacco. This means that you experience the full flavour of your smoke of choice. Another benefit is that glass does not transfer heat in the same way as a wooden pipe or cigarette. Glass pipes, although fragile, are easier to maintain. It can be as simple as soaking the glass in some warm water and gently washing off any build up. There are also a selection of tools available on our site to help clean all the cervices of your pipe.

Having a quality pipe can make the difference between a smooth and a harsh smoking experience. With all the different ways one can consume their smoke of choice, it is really a matter of enhancing the experience on an individual level. Each tool has its pros and cons and glass pipes are no different.

Another reason would be because they are small and easy to travel with, that makes them a bit more discreet. Each pipe in this collection has a distinct design that is sure to capture your customer's attention. For use, simply load your bowl. Now, all you have to do is light up and inhale from the mouthpiece.
