

Voopoo Drag X2 Kit

R650.00 **-24%** R850.00

VOOPOO The Drag X2 features three different modes for a customisable vape. Smart Mode automatically detects which coil you've inserted and conveniently outputs the best power level for a fuss-free experience.

Requires an external 1 x 18650 Battery sold separately

Eco Mode extends your battery life so you can vape for longer between charges. Finally, RBA Mode allows for more advanced control over your device's wattage output so you can find your ideal power level. You can swap between the modes quickly and easily which makes this device ideal if you're looking for a personalisable vape.

DRAG X2 and DRAG S2 are the POD MOD firstly applying VOOPOO PnP X atomization tech, which will impress you with its excellent performance behind the compact device, bringing you a joyful and clean vaping journey: vape 100 mL e-liquid without flavor fading and coil burning.

PnP X Coil, Long-Lasting Lifespan and Taste

Based on the PnP platform, VOOPOO PnP X platform brings a long-lasting coil lifespan without flavor fading and coil burning. A PnP X coil can sustain 100 mL e-liquid and a pack of PnP X coils can company you for a whole season. Besides, VOOPOO PnP X coil can be used with the e-liquid in PG: VG ratio of 7:3 or 5:5, the e-liquid in the flavor of coffee and tobacco and the e-liquid in the type of freebase+nic salt.

PnP X Top Airflow Intake Cartridge, 0 Leaking and Multiple Taste

The PnP X top airflow intake cartridge ensures that the air pressure within and outside of the device is balanced, effectively controlling e-liquid and condensate leakage. In addition, the wide power output range and the wide airflow adjustment ring with a scale line allow users to switch between tight-to-loose vaping experiences flexibly.

DRAG X2 comes with PnP X Cartridge DTL (with PnP X 0.15 Ω /0.3 Ω). Choose the PnP X Cartridge MTL (with PnP X 0.3/0.6 Ω), get a more tight vaping experience. Choose the PnP X Cartridge DTL (with PnP X 0.2/0.3 Ω), get a pure lung vaping experience with a sufficient vapor that hits your throat. Meanwhile, the drip tip of the MTL cartridge is replaceable, which offers you a different vaping experience.

Professional 2nd Generation, the Classic Returns. They continue the classic leather and metal design, presenting high-quality and trendy fashion. While the clever design makes the device more unique. The excellent grip curve and tactile materials provide a more comfortable vaping experience. **Intelligent Interaction, One Press to Vaping** We add a new Menu interface and highlight the main information on the UI for easier operation. What you see is what you get. With their competitive performance, we believe that the DRAG X2, DRAG S2 and PnP X platform will quickly become a top choice among vapers seeking a competitive edge.

Aspire Rover Plus Kit

R6000.00 **25%** R4500.00

The Aspire Rover Plus vape kit caters to vapers seeking simplicity without compromising style. This sleek kit boasts a built-in 2600mAh battery, offering a versatile 5-40W variable output. It strikes the perfect balance between power and battery longevity, easily lasting a multiple days before needing a recharge. Plus, the included AF coils grant you the flexibility to switch between RDTL (Restricted Direct To Lung) and DTL (Direct To Lung) vaping experiences.

5 Elegant Colours for You Selection

Discover timeless elegance with the Rover Plus, available in classic Silver, sophisticated Black, and certified Alternately modern our Purple Silver Side and Blue Silver Side options for a contemporary twist that stands out.

Features:

- Supports MTL, RDTL & DTL Vaping
- 2600mAh Built-in Battery
- Button Activated
- 5-40W Variable Output
- Multiple Modes
- Adjustable Airflow
- Top-Filling
- Compatible With AF Coils

Experience the convenience of the Rover Plus vape kit with just a simple click. Customize your vaping experience by choosing from a variety of modes. Adjust power output using Variable Wattage and Voltage modes, and switch between a lighter or more robust vape. For those seeking maximum power, activate Bypass mode. But that's not all—Customer Power Settings mode allows you to preset specific wattages for a truly personalized inhale. And if you're curious about different heat levels and flavor profiles, explore Temperature Control mode. Now, let's talk about the 4ml AF Tank. It features a user-friendly sliding top-fill mechanism, eliminating the need to remove the tank when refilling. Inside, you'll find two coil options: the 0.4 Ohm DTL (Direct-to-Lung) coil and the 0.6 Ohm RDTL (Restricted Direct-to-Lung) coil. If you're chasing big clouds, the 0.4 Ohm version is your go-to. For optimal performance, pair either coil with a 70% VG (vegetable glycerin) vape juice or higher. And if you prefer a Mouth-to-Lung (MTL) experience, there's also a separate 1.0 Ohm coil designed for use with 50/50 e-liquids.

Contains:

- Aspire Rover Plus Device
- 4ml Refillable AF Tank
- 0.4 Ohm AF Mesh Coil
- 0.6 Ohm AF Mesh Coil
- O-Ring Pack
- USB-C Cable
- User Manual

Push-to-open Top Filling System

The Aspire Rover Plus vape kit includes an AF tank with a sliding top-fill design, making refilling your tank easy.

Compatible with AF Series Coils

The Aspire Rover Plus vape kit includes the AF tank, which utilizes the Aspire AF series mesh coils. These coils will boost the flavour of each puff, thanks to their mesh design.

Your Partner for Long- lasting Vaping Satisfaction

The Aspire Rover Plus vape kit houses a large built-in 2600mAh battery with a 40W max power output. Plus, thanks to its 2A fast charging capability, it'll quickly reach full battery when it runs out.

0.96" TFT Colour Screen

The Aspire Rover Plus vape kit boasts a large 0.96" TFT screen that displays settings and key data such as your battery level and wattage mode selection.

Dive into the Diverse Modes of the Rover Plus

The Aspire Rover Plus vape kit boasts a range of modes such as Variable Wattage, Variable Voltage, Bypass, CPS and TC modes – so there's plenty of choice when it comes to customisation.
