

Innokin Go S MTL / SALT Disposable Tank

R50.00 **-55%** R110.00

Replacement tank for the Innokin Go S kit or a fantastic ready to fill disposable tank.

This 2ml capacity tank is made from food grade plastic and houses a built-in 1.6ohm coil with a 2ml capacity.

The tank is top fill with a slide open fill catch to keep things user friendly and features a fully adjustable bottom airflow ring to hone in the airflow draw and flavor.

The 1.6ohm coil creates a smooth MTL draw and uses a blend of organic cotton and woodpulp for the wick material to help enhance the flavor profile of your favorite liquid.

Features;

- 2ml Capacity
- Slide Top Fill
- Bottom Airflow
- MTL Tank
- 1.6ohm Coil

Package Contents;

- 1x Innokin Go S Tank

Features:

Brands: Innokin

Brands: VOOPOO

**VooPoo UForce-X Tank (Black)**

R500.00

VooPoo UForce-X Tank is a great choice for your vaping needs. It's built to last with stainless steel and Pyrex glass, making it a sturdy option. It can hold up to 2ml of e-liquid and is designed for sub-ohm vaping, working perfectly with the Drag 5 Vape Kit and the PnP X Coil series. One of the best things about this tank is its triple-slot adjustable top airflow system. This means you won't have to worry about leaks, and you can get a super airy draw, perfect for both direct to lung (DTL) and mouth to lung (MTL) vaping.

KEY FEATURES:

- 2ml E-liquid Capacity
- Equipped with 0.15ohm / 0.25ohm coils
- 510 threaded connection
- Interchangeable 810 Drip Tip
- Slide Top Filling System
- Airflow Adjustment
- Compatible with VooPoo Drag 5 Vape Kit and PnP X Coils

- Compatible with Aspire AF Coils: 0.4Ω (20-28W), 0.6Ω (15-18W), 1.0Ω (12-15W)
- 0.4Ω coil: large vapour production with 70% VG vape liquid, 1.0Ω: discreet cloud creation with 50/50 freebase e-liquid or nicotine salt vape juice
- Rotate adjustable airflow for a tailored vaping experience
- 510 removeable drip tip
- Leak-proof design

Features:**Brands:** Aspire

Geekvape Zeus Sub Ohm Tank Black

R490.00

The Geekvape Zeus Sub-Ohm Tank is the latest rendition of the highly acclaimed Zeus lineage, this time utilizing replaceable coil atomizers but maintaining the original structure of a top airflow control ring, and adding a bottom coil installation point to create a convenient performance sub ohm tank for those that prefer not to build. The new Geek Vape Zeus Sub-Ohm Tank uses mesh coil atomizers, providing a pair of kanthal mesh coils clocking in at 0.4ohm and 0.2ohm respectively. The Geek Vape Zeus Sub-Ohm Tank is leakproof, just like it's predecessors, relying on a top to bottom airflow control system to provide the proper airflow to rush through the internal coil structure. At the base is a threaded coil installation point which can be unscrewed to install or replace coils in a plug 'n' play method. Refilled using a top fill system, the Geek Vape Zeus Sub-Ohm Tank reveals two large fill ports to accommodate any nozzle size from juice bottles. In addition, the fill ports reduce the positive pressure from the tank, eliminating the possibility of leaks. Furthermore, the Geek Vape Zeus Sub-Ohm Tank can hold up to 5mL within the confines of the larger bubble glass and 3.5mL in the smaller replacement glass, respectively.

Geek Vape Zeus Sub-Ohm Tank Features:

- 26mm Diameter
- 5mL Juice Capacity
- 3.5mL Replacement Glass Capacity
- Silica Glass Reinforcement
- 304 Stainless Steel Tank Construction
- Child Safe Locking Drip Tip
- Threaded Top Fill System - Dual Fill Ports
- Top to Bottom Airflow Control System
- Geek Vape ZEUS MeshZ Replacement Coil Series
- 0.4ohm Mesh Z1 Coil - rated 60-70W
- 0.2ohm Mesh Z2 Coil - rated 70-80W
- Plug 'n' Play Coil Installation
- Threaded Bottom Coil Base Section
- 810 Drip Tip
- Threaded 510 Connection
- Available in Blue, Black, Gold, Gunmetal, SS, Red & Black, and Rainbow

Includes:

- 1 Zeus Sub-Ohm Tank
