

Golisi G25 18650 2500MAH 30A (2 Pack)

R290.00 ~~R290.00~~

GOLISI G25 is an economic 18650 Li-ion battery whose cycle life is more than 800 times.

Compared with traditional batteries, it is more powerful, environment friendly, safe and cost-effective for users.

Battery Type: IMR 18650 G25, High Drain

Apply To: E-Cig Mods, Flash Lights, Toys

Nominal Capacity: 2500mAh

Constant Current: 20A

Pulse Current: 30A

Nominal Voltage: 3.7V

Discharging Cut-Off Voltage: 2.75V

Charging Cut-Off Voltage: 4.20±0.05V

Internal Resistance: 20mΩ

Safety Protection: Based on UL1642 standard, no leaking or explosion in extreme tests of overcharging, short circuit, over discharging, high temperature

Standard Charging Current: cc/cv(<=2A)

Fully Charged Time: Down to 1.5 hours (by using GOLISI charger)

Size (mm): Diameter - 18 x Height - 65

Net Weight: 120g

Cycle Times: >500

Operate Temperature: Charging (0 ~ 45°C) - Discharging (-20 ~ 60°C)

Certificates: CE, ROHS, FCC, MSDS, UN38.3, IEC62133 Drop Test,

Sea Shipping Safety Report, Air Shipping Safety Report

Storage Temperature: Room Temperature, Dry Place

Capacity: 2500mAh

Constant Discharging Current: 20A

Molicel P42A 4200MAH 30A 21700 (1PC)

R195.00

The Molicel P42A 21700 vape battery has been specially designed to support advanced vape devices and kits compatible with 21700 batteries. These larger cells offer a far greater level of power and capacity, featuring a 4200mAh capacity and a 30A continuous output.

Specification:

Flat Top 21700 Vape Battery

4200mAh Capacity

30A Continuous Discharge

3.7V Nominal Voltage

4.2V Charging Voltage
